| | <p>Share the responsibility for the success and well-being of all children and youth. Advocate for staff with the appropriate credentials. Our school actually needs a trained and educated child counsellor or child psychologist, not teachers who do not have a full time position or EA.</p> <p>Address community concerns and ideas related to the school community</p> <p>Ask high school kids to help Supervise during breaks. Maybe respectful role models might help with the fights and behaviour issues</p> <p>Hire more educators and aids</p> <p>Help prevent teacher burnout</p> <p>advocate for the students</p> <p>Let my son ride on the bus out to his grandparents place the bus only has to go an extra 3 miles and they said we don't want to put on the extra mileage it's ridiculous and it's not like he would be riding it out there everyday</p> <p>Push the school and the town for better safety and lighting around the school and parking lot.</p> <p>Nothing, you are amazing as it is 😊</p> <p>Really not sure what they do and if they have any real influence at all. I would want them to represent us as parents and have enough influence to bring changes to things that are concerns to parents.</p> <p>They are doing great!</p> <p>I don't know</p> <p>Bring French class to the school</p> <p>Nothing</p> <p>Have more student voices on board.</p> <p>I would like to the SCC to be more visible to us, would love more communication and transparency of what they doing on behalf of our families. Not everyone can attend or contribute to planned meetings so this would help the relationship between families and the SCC which would help the relationship between our families and the school.</p> |
